ISO 56001 and Certification

Certify how your organization innovates.

ISO 56001, published in 2024, is the first certifiable standard for innovation management systems. GIMI's four-level certification gives you a clear path to meet and exceed it.

1 Is this your issue?

Customers, investors and governments now ask how you manage innovation.

A new standard
ISO 56001 sets the bar, and few know how to meet it.

No evidence
You can't prove your innovation system works.

Gaps you can't see
You don't know what an auditor would find.

Certification for its own sake
You want a system that delivers, not just a certificate.

QUESTIONS LEADERS ASK US

- ? What does ISO 56001 require?
- ? How do we close the gaps?
- ? How long will it take?
- ? How far are we from certification?
- ? Who should own the system?
- ? How do we keep improving after?

If you answered yes to any of these, read on.

2 Is there a solution?

Yes: audit, design, implement and certify, with the team that helped write the standard.

ISO 56001 and Certification

We helped found the U.S. team behind the ISO 56000 series.

GIMI's framework, reviewed by former ISO TAG members and endorsed as "ISO+", takes you beyond compliance to results.

1 Audit
Strategy, Capacity, Discipline and Performance, with evidence.

2 Design and implement
Close the gaps, train teams, run internal audits.

3 Certify
GIMI Levels 1–4 and ISO 56001 preparation.

FOUR PHASES

1
Audit
Interviews and evidence

2
Design
Framework, roadmap, processes

3
Implement
Training, pilots, internal audits

4
Certify
GIMI levels and ISO readiness

WHAT YOU RECEIVE

READINESS
An ISO 56001 gap analysis
Exactly what an auditor would find.

SYSTEM
